INTEGRATED GOVERNANCE, RISK, AND COMPLIANCE – WITH THE PERFECT BALANCE OF COST, VALUE, AND RETURN

THOMSON REUTERS ACCELUS

Thomson Reuters Governance, Risk and Compliance (GRC) business unit provides comprehensive solutions that connect our customers' business to the ever-changing regulatory environment. GRC serves audit, compliance, finance, legal, and risk professionals in financial services, law firms, insurance, and other industries impacted by regulatory change.

The Accelus™ suite of products provides powerful tools and information that enable proactive insights, dynamic connections, and informed choices that drive overall business performance. Accelus is the combination of the market-leading solutions provided by the heritage businesses of Complinet, IntegraScreen, Northland Solutions, Oden®, Paisley®, West's Capitol Watch®, Westlaw® Business, Westlaw Compliance Advisor® and World-Check®.

Built to meet the needs of internal audit, internal controls management, risk management, and compliance professionals, Enterprise GRC helps you increase value and decrease costs by eliminating overlaps, gaps, and redundant efforts in high-priority risk areas.

DRIVE CONSISTENCY AND REDUCE COST

Enterprise GRC ensures a common entry point for audit, risk management, and compliance process owners. By letting all assurance groups share common definitions and terms, organizational reporting structures, taxonomies, and frameworks, you improve data accuracy and streamline your approach to GRC – minimizing data entry, improving accuracy, and enhancing consistent collaboration.

DRIVE USER ADOPTION

- **Flexibility** – Configure software to adapt to your organizational methodology and structure.
- **Personalized workspaces** – Design a dashboard that delivers personalized views and immediate access to impactful data.
- **Increase end-user adoption** – Easy-to-use interface lets new staff use the software with minimal training.

PROMOTE COLLABORATION; INCREASE EFFICIENCY

- **Drive consistency** – Standardize methodology across the organization. Eliminate redundant efforts and provide an accurate picture of your organization's risk position.
- **Collaboration** – Easily interact with other assurance groups and align with strategic business objectives.
- **Single source of truth** – Share a common taxonomy, core data model, and organizational structure.

GAIN REAL-TIME VISIBILITY

- **Information** – Access real-time organizational data to support smart business decisions.
- **Reporting** – Automatically generate reports delivering real-time information to key stakeholders.
- **Confidence** – Provide actionable information to management; assure stakeholders that effective frameworks are in place.

FLEXIBLE DEPLOYMENT OPTIONS

- **On-premise perpetual license** – Deploy software in your environment; manage your own infrastructure and software upgrades.
- **On demand** – Access software via a Web-browser; Thomson Reuters manages GRC infrastructure and software upgrades.
- **Hosted perpetual license** – Access software via a Web-browser and manage your own updates.

INCREASE BUSINESS VALUE BY EFFECTIVELY MANAGING RISK

Enterprise GRC helps you gain a greater understanding of your risk position and control environment, so you can better avoid or respond to unforeseen events – and take advantage of emerging opportunities.
