

# COMPLIANCE COMPLETE

## US INSURANCE EDITION – STATE RULES AND REGULATIONS

### THOMSON REUTERS ACCELUS

Thomson Reuters Governance, Risk and Compliance (GRC) business unit provides comprehensive solutions that connect our customers' business to the ever-changing regulatory environment. GRC serves audit, compliance, finance, legal, and risk professionals in financial services, law firms, insurance, and other industries impacted by regulatory change.

The Accelus™ suite of products provides powerful tools and information that enable proactive insights, dynamic connections, and informed choices that drive overall business performance. Accelus is the combination of the market-leading solutions provided by the heritage businesses of Complinet, IntegraScreen, Northland Solutions, Oden®, Paisley®, West's Capitol Watch®, Westlaw® Business, Westlaw Compliance Advisor® and World-Check®.

### WHAT IS IT?

Compliance Complete State Rules & Regulations offers an efficient way for compliance professionals to review existing and new regulatory information affecting areas such as market conduct, underwriting, licensing, filing, and policy termination – and all lines of insurance.

### “HOW-TO” GUIDANCE FROM ODEN ANALYSTS

Compliance Complete analysts research insurance compliance issues and offer information summaries and guidance on the Web. Choose from six reference libraries:

- Property & Casualty
- Individual Life & Annuities
- Group Life & Annuities
- Long-Term Care Insurance
- Financial Institutions
- Agent Practices

### HOW DOES IT HELP ME?

Insurance professionals often are not lawyers. They understand insurance very well, but look for assistance in interpreting statutory language.

State Rules & Regulations helps you look for information in the right places, use the right search phrases, and avoid wading through lots of irrelevant information. Then, after you've quickly and efficiently found the right information, you don't have to store it and keep it updated. We do that

for you!

### FIND WHAT YOU NEED QUICKLY

- Simplify the demanding task of understanding and complying with insurance laws and regulations – whether you're an insurance carrier, broker, law firm specializing in insurance compliance, bank that sells insurance, or an MGA
- Minimize the time and money you spend researching and communicating regulatory compliance issues; find lucid summaries of statutes, regulations, bulletins, and other regulatory sources; track statutes and regulations from proposal through adoption
- Focus on implementation of regulatory changes

### WHAT IS THE ODEN ADVANTAGE?

Your compliance staff can save time and make informed decisions about implementing regulatory changes.

### INFORMATION ORGANIZED BY TOPIC AND JURISDICTION FOR EFFICIENT ACCESS.

Unlike other regulatory providers, Compliance Complete reports legal news and information in a consistent format – summarizing all of a state's regulation, statute, and bulletin information in one convenient location.

Other compliance services don't have the indexing and editorial analysis that Compliance Complete provides.

- Keyword searches in other services can yield too many references to the type of information you seek
- Oden summaries and chart building simplify the maintenance and updating of compliance requirements across multiple jurisdictions and states
- Trade organizations can't match the high quality and completeness of information

### YOU CAN RELY ON SOURCE INFORMATION FROM COMPLIANCE COMPLETE

Our insurance professionals and attorneys use Westlaw and other Internet sources to develop and maintain research; to answer client questions, our research staff maintains working relationships with departments of insurance and other regulatory offices.

### WHAT CAN COMPLIANCE COMPLETE DO FOR ME?

State Rules & Regulations works like an assistant by summarizing the laws, regulations, bulletins, and other regulatory information.

- Your staff can focus more time on the implementation process, because they won't have to sift through complex legal language to understand what a statute or regulation is about
