

COMPLIANCE COMPLETE

US INSURANCE EDITION – TRACK

THOMSON REUTERS ACCELUS

Thomson Reuters Governance, Risk and Compliance (GRC) business unit provides comprehensive solutions that connect our customers' business to the ever-changing regulatory environment. GRC serves audit, compliance, finance, legal, and risk professionals in financial services, law firms, insurance, and other industries impacted by regulatory change.

The Accelus™ suite of products provides powerful tools and information that enable proactive insights, dynamic connections, and informed choices that drive overall business performance. Accelus is the combination of the market-leading solutions provided by the heritage businesses of Complanet, IntegraScreen, Northland Solutions, Oden®, Paisley®, West's Capitol Watch®, Westlaw® Business, Westlaw Compliance Advisor® and World-Check®.

WHAT IS IT?

Compliance Complete Track is a regulatory implementation and compliance-tracking tool that combines regulatory content and tracking capabilities to help compliance staff manage and implement the latest regulatory changes.

ASSESS THE IMPACT OF NEW LAWS MORE EASILY

Compliance Complete Track helps legislative review analysts more easily assess the impact on the organization of newly enacted bills, adopted regulations, and issued bulletins – and coordinate and manage the entire implementation process.

Items affecting the organization move into the tracking module and create issues for implementation. Proposed and enacted content can be bundled for various lines of business, including:

- Property and casualty
- Individual life and annuities
- Group life and annuities
- Long-term care insurance

HOW DOES IT HELP ME?

Systematic – Compliance Complete Track provides you with a systematic way to handle compliance issues – and significantly reduce exposure to consumer ill will, litigation, and state sanctions.

Complete – Compliance Complete Track links information and workflow throughout the compliance cycle, so you can actively manage compliance processes on a daily basis.

ALWAYS HAVE THE LATEST INFORMATION ON CHANGES THAT AFFECT YOU

A big challenge to organizations is recognizing when and where in the compliance cycle a breakdown may occur. Compliance Complete Track offers feedback, measurement, and accountability to make that happen.

- Get timely information on newly enacted bills, adopted regulations, and issued bulletins – and an organized way to assess information and track items through implementation
- Use one centralized area for the entire process, so that relevant information can be archived and retrieved for later use

WHAT IS THE ODEN ADVANTAGE?

Compliance Complete Track helps you structure information, track the progress of objectives, initiate measurement, and manage archiving and document retrieval within one or several locations in your organization.

EFFECTIVE, SYSTEMATIC WORKFLOW

With the Compliance Complete Track workflow, you can align IT, finance, and business units – and strategize, implement, manage, and measure compliance initiatives successfully.

- Includes all versions of proposed bills and regulations and all new legislation, regulations, and bulletins within the scope of insurance regulation; other content channels can be added
- Intuitive for all users, with features and functionality that create an efficient turnkey regulatory implementation process for compliance
- Systematic, so that nothing slips through the cracks in implementing regulations; from start to finish Compliance Complete Track archives its activities, creating a complete record that you can easily access for internal audit or formal market-conduct exam

ONLY COMPLIANCE COMPLETE TRACK

- Overcomes past shortcomings in meeting compliance due dates
- Ensures effective communications in the implementation of compliance projects
- Builds accountability into your compliance process
- Eliminates incomplete records and insufficient document retrieval when implementing compliance projects
